

QUALITY TOURISM FOR ALL

Mafra is a friendly Municipality for motor caravanning. That is why the Municipal Council has been investing, in a sustainable way, in the promotion of suitable conditions for the practice of itinerant tourism, either by creating new public service areas or by raising awareness among private individuals of the availability of these areas.

This guide seeks to be a support tool so that, with favourable mobility conditions, the motor caravanning community can start to discover the Municipality of Mafra, and the decentralised and diverse tourism experiences this territory has to offer.
